

SUSTAINABILITY NEWSLETTER

Green Revolving Fund

The Concordia Alumni Sustainability Network is aiming to raise \$5,000 for the Green Revolving Fund. A green revolving fund is a fund that once it has capital, will continue giving to Concordia for thousands of student to come. Funds are specifically invested into projects that decrease energy usage or reliance on fossil fuels and have the potential to reduce the monthly cost of energy or other utilities.

[Learn more and donate today at this link!](#)

As of this newsletter publish date, \$1,784 has been raised toward the \$5,000 goal.

Sustainable Student Feature: Tim Wilbur

"I am a senior Environmental Studies Major with a minor in Communication Studies, and I am from Cold Spring, MN. As the Office of Sustainability Intern, I am involved in the Green Office program, COBBikes, and other miscellaneous sustainability projects. I love to spend my time outdoors, which is the main reason I am involved with sustainability.

One thing I wish everyone knew about being sustainable is that it is not hard and every little bit helps!"

Sustainable Move Out

Sustainable Move Out is happening from April 21st to May 6th. There are specific locations for students to drop off items in boxes in the residence halls. Appropriate items include things such as clothing, shoes, desk items, books, school supplies, and non-perishable food items such as a tea, coffee, cans of soup, boxes of cereal etc.

Look for your designated drop off spot in your hall! Items you drop off will be sorted by EcoReps and either donated to the Free Store (in Park Region) or will be distributed to local second hand stores and food pantries. The event is a great way to support sustainability and decrease the load of stuff to bring home!

Sustainable Move Out ends at noon on Sun, May 6!

Earth Week 2018
